Muhammad Faraz

Software Engineer

Frontend Developer with expertise in React.js and proficiency in various frontend frameworks including Socket.IO, and Tailwind CSS. Skilled in building responsive and dynamic user interfaces that enhance user experience. I have the ability to collaborate with cross-functional teams to deliver high-quality software solutions. Currently, I am working on my problems solving skills and learning backend development i.e. Express Js and Node Js.

PERSONAL PROJECTS

Clean Sweep Pakistan

GitHub-amirfaraz07/Clean-Sweep-Pakistan

- Developed a full stack application using React, Tailwind CSS, Node JS and Express JS to manage and monitor waste disposal statuses as my Final Year Project. The system includes distinct interfaces for admin and civilians.
- **Admin Interface:** Allows admin to add, edit, and delete area statuses, toggling between 'cleaned' and 'not cleaned' and create sweeper's report.
- **Civilian Interface:** Enables civilians to view area statuses and launch complaints without logging in.

E-commerce App

GitHub-amirfaraz07/Rift-com-Ecommerce-App

- An e-commerce platform with dynamic product display features. A filter section for easy product browsing, detailed product pages with quantity adjustment and add-to-cart functionality and a cart page that allows users to manage their items with real-time price updates.
- Utilized React JS and Tailwind CSS for a responsive, dynamic product showcase.
- Category filters (T-Shirts, Jackets, etc.) for improved navigation. Detailed product views with quantity adjustment and add-to-cart functionality.
- Users can view, remove items, and adjust quantities in the cart with real-time price updates.

Chatting Application

GitHub - amirfaraz07/CHAT-APP

- A real-time chat application that provides seamless communication among users. The app supports user login, automated welcome and join notifications and a user-friendly interface that displays messages in a clear format.
- Utilized React JS and Socket.io to enable seamless real-time chat functionality.
- Included user login system and cross icon to leave the chat.
- Designed the chat interface to show messages in a "{username}: message" format for clarity.

SKILLS

React.js   C++   JavaScript   Bootstrap

Socket IO   MongoDB   Tailwind CSS

EXPERIENCE

Tutor

05/2021 – 11/2022   *Lahore, Pakistan*

Achievements/Tasks

- Instructed an O level student at a school structured into three tiers: O1, O2, and O3.

Home Tutor

05/2020 – Present   *Lahore, Pakistan*

Achievements/Tasks

- Instructed students at home from class 5 to 10.

Online Sales Expert

05/2020 – Present   *Remote*

Achievements/Tasks

- Buying and selling of currencies and online games products.
- Managed relationships with international clients, providing comprehensive gaming services including account management and support.

EDUCATION

UNIVERSITY OF EDUCATION   (10/2020 - 06/2024)

BS INFORMATION TECHNOLOGY   **CGPA 3.34 / 4.0**

Gained leadership, communication, and management skills through active roles in university societies.

Major Subjects: C++, Object Oriented Programming, Databases, Data Structures and Algorithms, Web Development.

ACHIEVEMENTS

- Leetcode 200 problems
- UE Code Quest (3rd Rank)
- Led a web development bootcamp (HTML, CSS, JavaScript)
